Subject: Re: Meeting -- Runyon

Yes.

I'm looking for a reasonable voice within your group that doesn't hold grudges. We have to think beyond personal opinions or motives. I have no motives. I'm literally just doing my job. Our existence (HHWNC) is to provide transparency between local government and the community within our boundaries. Not tourists from

Japan or body builders from Manhattan beach. HHWNC boundaries are here. There are other NCs to represent those folks.

I have politely asked Don for some information in the spirit of his commitment to work together. He has always been a gentleman and this whole mess is disturbing to me to see personalities change and in fighting between neighbor's. He has not had the courtesy to respond to my reasonable questions even to say he doesn't have the answers but will find out. Why not? This implies something isn't kosher. I HAVE to abide by public request for info. You're a politician. You should understand the Brown Act. Now lawsuits are being filed, etc. This is crazy.

Cyd feels there could have been another way around this. Maybe for a group of homeowners associations but not for a city elected NC WHICH MUST FOLLOW THE DICTATE OF THE CITY ATTORNEY & THE BROWN ACT. The reaction by FORC has been to kill the messenger.

At some point FORC (in my humble opinion) needs to take the high road here and come to the table to take responsibility and discuss compromise. You have many good ideas in your vision plan which are being blurred by the other topic. Now all this smutty language is circulating re the definition of the sponsor logo, etc.

I'm happy to meet with you and Don. You two need to be on the same page. HHWNC represents you too and your role has been confused from the original intent without anyone realizing it.

Protect FORC and your team of dedicated people. Not through in fighting but through intelligent discussion and compromise.

I personally could have brought you corporate sponsors to fix the wall, etc without any sports arena - just good will and a small plaque. Wells Fargo. Disney. Etc. There are many companies that have budgets for this, for community good will. I do this sort of thing all the time. I doubt you solicited this donor. They have written how they sought this out. They have already gotten more than $250,000 in front page publicity.

This shouldn't be about them and us. This should be about protecting Runyon. The reason FORC was born. Remind Don about the CD4 plan to park cars for Runyon along Wattles. Who stopped that? We did. Why? Because it upset Don's neighbor's in his homeowners group. Our stakeholders whose opinions and quality of life mattered. So why don't the opinions of the Vista people matter now? It's a double standard. Shall we go back to CD 4 and suggest a parking lot along Wattles with entry at Sierra Bonita and Franklin? Why not? It will help the visitors from Santa Barbara. Who cares about the locals? The so-called 20%? Very suspect, random numbers.

So yes. Let's meet. But not on my badly needed weekend or for a walk in the park.

Thank you, John, for reaching out. I really do appreciate it. Your diplomacy skills are kicking in and I wish you could share those skills with the rest of your team.

Very sincerely,

Anastasia

(And so I'm not criticized by my board or officers for excluding them, I'm copying them and Don and STACY and the other "team" members. This is all about transparency and the same goals - to get this resolved).

Yes, this issue could have been handled very differently by the neighborhood council. It could have been done in a way that built bridges instead of walls in our community. This latest email is the most recent example of our mishandling of this. Sadly, all of my suggestions have been ignored.

Lest I yet again be accused of violating the Brown Act or somehow opposing transparency, I will hold any further comments for our publicly noticed meeting next Wednesday.
